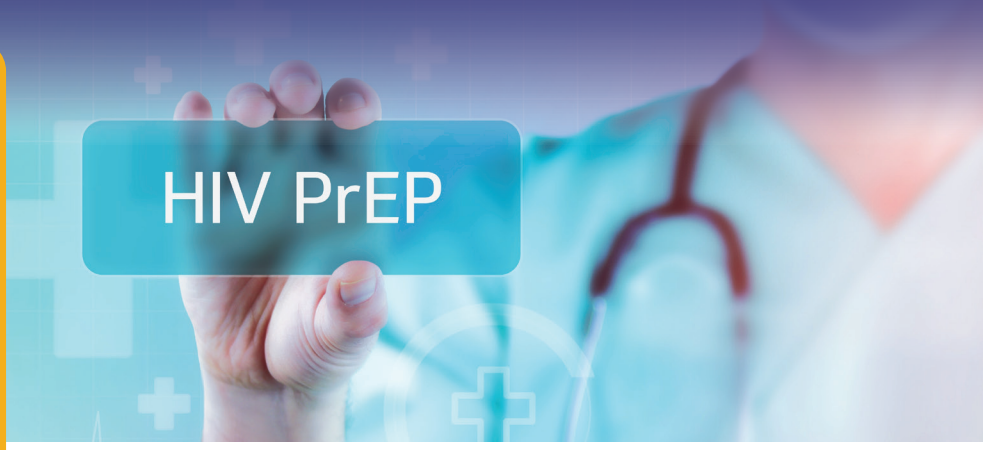
SPACE(R) FOR IMPROVEMENT IN ASTHMA

Discover the key to better asthma management with us! At Illinois ADVANCE, we're not only about educating patients – we're pioneering a movement. Our tailored series of brochures on asthma promote asthma knowledge and can empower healthcare providers with the tools to guide their patients through the maze of asthma devices. Our newest addition of topic discussion, Space(r) for Improvement, capitalizes on the need to have invaluable insight into maximizing the efficacy of the inhaler, whether with a valved holding chamber or a spacer. Get a head start in elevating your patient's technique, enhancing medication delivery, and helping them breathe easier than ever before! Sign up here for a visit with us!



EXPANDING PREP ACCESS: THE KEY TO GETTING TO ZERO

On May 31st, Illinois ADVANCE played its part in helping to expand access to HIV Pre-Exposure Prophylaxis (PrEP) in Southern Illinois. Our detailers met with 15 providers at the Southern Illinois University Medicine Obstetrics and Gynecology group to discuss PrEP in pregnancy and explore collaborative efforts.

This visit aligns with the goals of the "Getting to Zero Illinois" initiative, a statewide program aiming for zero new HIV transmissions and zero people living with undiagnosed or untreated HIV by 2030. By collaborating with key healthcare providers, Illinois ADVANCE is working to ensure PrEP is readily available throughout the state.

Interested in learning more about PrEP?
Schedule a visit with Illinois ADVANCE today! We can answer your questions and help you determine if PrEP is right for you.

Together, we can achieve Getting to Zero in Illinois!

THANK YOU! MERCYHEALTH'S JAVON BEA HOSPITAL RESIDENCY PROGRAM IN ROCKFORD, IL!

Over the past few months, we have completed nearly 300 in-person visits with 39 Internal Medicine residents. Mercyhealth's leadership is dedicated to opioid safety, and during these visits, we covered a wide range of topics. From increasing Naloxone prescribing and dispensing to initiating Buprenorphine for Opioid Use Disorder, this collaboration has been incredibly educational for all involved.
